COMPANY INTRODUCTION

Nestled in Quzhou City, Zhejiang Province, China. our company emerged in 2019 as an innovative tech - driven enterprise. Specializing in the seamless integration of research and development (R & D), production, and sales of vacuum suction cups, we have firmly established ourselves in the industry.

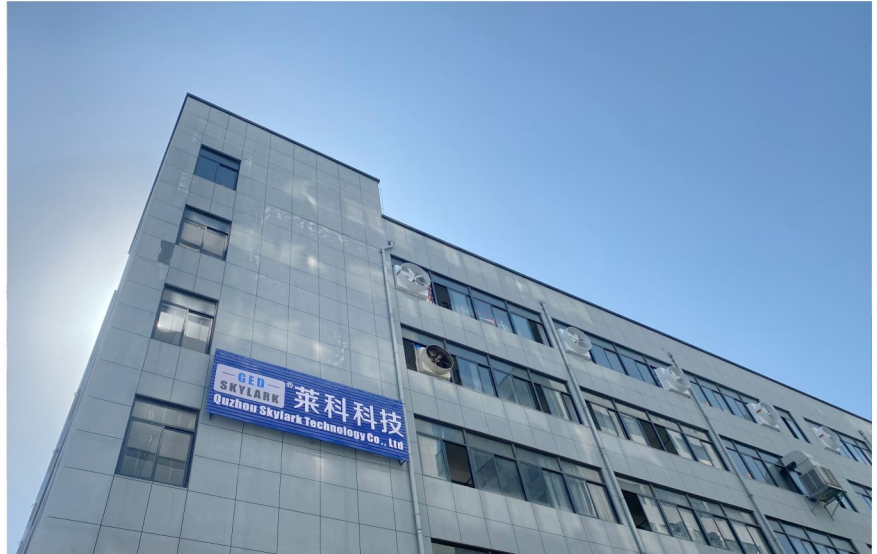

Our state of the art facilities include a standard factory building spanning over 2500 square meters, a well - organized production and assembly workshop adhering to strict standards, and cutting - edge tensile performance testing equipment. Quality is our top priority. To ensure that our customers receive only the best, every single product undergoes rigorous testing before it leaves our factory.

We take pride in our intellectual property. We hold our own patents and have successfully applied for them in countries and regions such as China, the United States, and the European Union. Understanding that every customer has unique requirements, we offer personalized private customization services, tailoring our products to meet specific needs.

Guided by the product R & D philosophy of "innovation", "practicality", and "ultimacy", we are committed to pushing the boundaries in product design, user experience, and overall quality. We strive to achieve perfection in every aspect, making our products stand out in the market.

Our market reach is extensive. Our products have found their way to numerous countries and regions across the globe. In North America, we serve the United States and Mexico; in Europe, we have a strong presence in the United Kingdom, Germany, Italy, Poland, and Russia. South America is also on our map, with customers in Brazil and Colombia. In Asia, we have established a solid customer base in East Asian countries like South Korea and Japan, as well as in Southeast Asian nations such as Singapore, Vietnam, and Indonesia.

This wide - reaching export network not only demonstrates the high - quality and reliability of our products but also reflects our ability to meet the diverse demands of international customers.

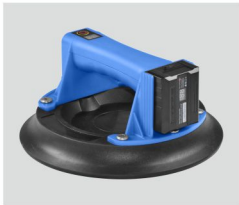

SMART SUCTION CUP

Model
GED-DX01

Name
8-inch 2-ply rubber smart suction cup

Maximum load capacity
170KG

Model
GED-DX05

Name
8-inch 1 layer rubber smart suction cup
(specialized for curved surface)

Maximum load capacity
170KG

Model
GED-DX04

Name
9-inch 2-ply rubber smart suction cup
(with D/28mm pressure gage)

Maximum load capacity
220KG

Model
GED-DX07

Name
8-inch 2-ply rubber smart suction cup
(with D/28mm pressure gage)

Maximum load capacity
170KG

Features

1. Automatic Pressure Maintenance System, Featuring Auto-regulated vacuum pressure and Automatic vacuum pump activation.
2. External exhaust+automatic cleaning and dust removal
3. External replaceable 2400mAh lithium battery
4. Digital display screen
5. Button Operation:
Long-press to power on, Double-click to power off

Features

- Charging Time:3 hours
- Battery Life:More than a week
- Power:3.5W
- Battery Capacity:2400mAh
- Output Voltage:3.7V
- Material:PA6+rubber

SMART SUCTION CUP

Model
GED-DX31

Name
double-layer large screen intelligent digital suction cup

Maximum load capacity
170KG

Model
GED-DX31A

Name
8-inch double-layer large screen intelligent digital suction cup

Maximum load capacity
170KG

Model
GED-DX31B

Name
double-layer large screen intelligent digital suction cup (167mm×247mm)

Maximum load capacity
240KG

Model
GED-DX21

Name
6-inch 2-ply rubber smart suction cup

Maximum load capacity
100KG

Model
GED-DX22

Name
Mini Electric Vacuum Suction Cup (93mm×170mm)

Maximum load capacity
100KG

Model
GED-DX11

Name
8-inch double-layer integrated digital suction cup

Maximum load capacity
170KG

Features

1. Automatic Pressure Maintenance System, Featuring Auto-regulated vacuum pressure and Automatic vacuum pump activation.
2. External exhaust+automatic cleaning and dust removal
3. Double filtering(DX31, DX31B)
4. Built in replaceable 1200mAh lithium battery
5. Integrated digital display screen
6. Long press to turn on/off, short press to start, double click to release pressure, triple tap for automatic cleaning

Features

Charging Time:3 hours

Battery Life:3-5 days

Battery Capacity:1200mAh

Output Voltage:3.7V

Power:3.5W

Material:PA6+rubber

SMART SUCTION CUP

Model
GED-DX32

Name
Double layer integrated digital suction cup
(167mm×247mm)

Maximum load capacity
260KG

Features

- 1. Automatic Pressure Maintenance System, Featuring Auto-regulated vacuum pressure and Automatic vacuum pump activation.
- 2. External exhaust+automatic cleaning and dust removal
- 3. Suitable for smooth and slightly rough tiles
- 4. External replaceable 2000mAh lithium battery
- 5. Integrated digital display screen
- 6. Long press to turn on/off, short press to start, double click to release pressure, triple tap for automatic cleaning
- 7. Double filtering
- 8. Dual motor

Model
GED-DX33

Name
8-inch double-layer large screen intelligent digital suction cup (210mm)

Maximum load capacity
200KG

Features

- 1. Automatic Pressure Maintenance System, Featuring Auto-regulated vacuum pressure and Automatic vacuum pump activation.
- 2. External exhaust+automatic cleaning and dust removal
- 3. Suitable for smooth and slightly rough tiles
- 4. External replaceable 2000mAh lithium battery
- 5. Integrated digital display screen
- 6. Long press to turn on/off, short press to start, double click to release pressure, triple tap for automatic cleaning
- 7. Double filtering

Features

Charging Time:3 hours
Battery Capacity:2000mAh

Battery Life:5-7 days
Output Voltage:7.4V

Power:3.5W
Material:PA6+rubber

ELECTRIC SUCTION CUP

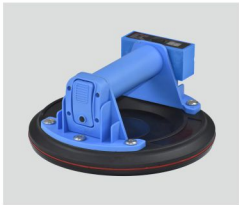

Model
GED-DB02

Name
Timed smart pump system

Model
GED-DB03

Name
Smart vacuum pump system

Model
GED-8XD0302D

Name
8-inch 2-ply rubber electric suction cup

Maximum load capacity
170KG

Model
GED-8XD0503

Name
8-inch 2-ply rubber electric suction cup
(with D/28mm pressure gage)

Maximum load capacity
170KG

Features

Function: Automatic vacuum pump activation.	Charging Time: 4 hours(DB02)、3 hours(DB03)
Output Voltage: 3.7V	Battery Capacity: 1200mAh(DB02)、900mAh(DB03)
Power: 3.5W	Battery Life: 5-7 days(DB02)、3-5 days(DB03)
Charger: USB/type-C	Material: PA6+rubber

MANUAL SUCTION CUP

Model
GED-6XS02

Name
6-inch 2-ply rubber manual suction cup

Maximum load capacity
100KG

Model
GED-8XS01

Name
8-inch 1 layer rubber manual suction cup

Maximum load capacity
150KG

Model
GED-8XS04

Name
8-inch 2-ply rubber manual suction cup
(with D/40mm pressure gage)

Maximum load capacity
170KG

Model
GED-8XS06

Name
8-inch 1 layer rubber manual suction cup
(specialized for curved surface)

Maximum load capacity
170KG

Model
GED-6XS03

Name
6-inch 2-ply rubber manual suction cup
(with D/28mm pressure gage)

Maximum load capacity
100KG

Model
GED-8XS03

Name
8-inch 2-ply rubber manual suction cup

Maximum load capacity
170KG

Model
GED-8XS05

Name
8-inch 2-ply rubber manual suction cup
(with D/28mm pressure gage)

Maximum load capacity
170KG

Model
GED-TSX01

Name
2-ply rubber manual suction cup
(167mm×247mm)

Maximum load capacity
240KG

SMART INDUSTRIAL SUCTION CUP

Model
GED-DX51

Name
Intelligent Industrial Suction Cup

Maximum load capacity
200KG

Features

- Function: Automatic Pressure Maintenance System, Featuring Auto-regulated vacuum pressure and Automatic vacuum pump activation.
-
- Output Voltage: 21V
-
- Charging Time: 3 hours
-
- Battery Capacity: 2000mAh*5
-
- Battery Life: More than a week
-
- Power: 20W
-
- Pmaterial: PA6+rubber
-

Model
GED-PV10

Name
Vibrating Suction Cup

Features

- Sucker Size: 180mm (for 30-180cm tiles)
-
- Output Voltage: 21V
-
- Charging Time: 3 hours
-
- Battery Capacity: 1500mAh*5
-
- Lithium Battery: 18650 cells*5
-
- Motor Speed: 11000r/min
-
- Max Lifting Weight: 150kg
-

VIBRATING SUCTION CUP

Model:GED-H19B

Motor Speed: 20000r/min **Max Lifting Weight:** 100kg **Sucker Size:** 150mm (for 30-200cm tiles)

Model:GED-H19D

Motor Speed: 20000r/min **Max Lifting Weight:** 100kg **Sucker Size:** 150mm (for 30-200cm tiles)

Features

Rated Voltage: DC21V	Gross Weight: 18.6KG	Unit Weight (with two batteries): 3.5KG
4-cell battery (one battery: 2000mAh)	Net Weight: 17KG	Battery Weight: 0.38KG
Outer Box Dimensions: 51.5*36*53 cm	Unit Weight (with one battery): 3.1KG	Net Machine Weight (without battery): 1.93KG
Packing Quantity: 6 units		

PLATE LIFTING DEVICE

Name

Plate lifting device (enhanced version)

Vertical suction: 200KGS

Suitable for 3200×1600MM porcelain slab

Up to 10 suction cups can be added

Expansion size: 1.9m~3.45m

Name

Plate lifting device (regular model)

Vertical suction: 200KGS

Suitable for 3200×1600MM porcelain slab

Up to 8 suction cups can be added

Expansion size: 1.9m~3.45m

You can choose to configure any manual or electric suction cup

MANUAL SUCTION CUP

Model

GED-6DZ03

Name

120mm Three-Jaw Claw Manual Suction Cup(Plastic version,Metal version)

Model

GED-6DZ02

Name

120mm Two-Jaw Claw Manual Suction Cup(Plastic version,Metal version)

Model

GED-6DZ01, GED-2DZ01

Name

120mm, 60mm One-Jaw Claw Manual Suction Cup(Plastic version,Metal version)

The collage displays a variety of intellectual property documents:

- EUIPO Certificates:** Three certificates of registration for trademarks, each featuring the EUIPO logo and a star. The certificates are for the trademarks "EUROPEAN UNION INTELLECTUAL PROPERTY OFFICE", "EUROPEAN UNION INTELLECTUAL PROPERTY OFFICE", and "EUROPEAN UNION INTELLECTUAL PROPERTY OFFICE".
- Chinese Patents:** Three patents issued by the State Intellectual Property Office (SIPO) of China. They include an Invention Patent, a Utility Model Patent, and a Design Patent, all for the invention "A kind of...".
- Chinese Patent Award Certificate:** A certificate awarded by the State Intellectual Property Office (SIPO) of China for the invention "A kind of...".
- Zhejiang Province Certificate:** A certificate issued by the Zhejiang Province Science and Technology Department for the "Zhejiang Province Science and Technology Small and Medium Enterprises".
- Ningbo City Certificate:** A certificate issued by the Ningbo City Science and Technology Expert Committee for the "Ningbo City Science and Technology Expert Committee".
